The Music Video

One song, filmed again and again by four of you, cut to the beat in iMovie.

4
people per group

45 to 60 s
of one song

1080p
export

HORIZONTAL ONLY Every take. The frame must be wider than it is tall.

STEP BY STEP

01 Plan the shoot

- One song, a 45 to 60 second section. I approve it.
- Every shot sketched, doable in one class.

02 Film full takes

- Playback starts the song at the same spot. Clap once.
- Swap roles every few takes.

03 Change something every take

- Wide, close-up, two rockstars, camera moves.
- Use at least three moves.

04 Song first, then picture

- Song on the timeline, every clip muted.
- Cut on the beat. One look throughout.

Watch out

- **Half takes.** They leave holes in the edit. Film the whole section.
- **Camera sound left on.** It doubles the song. Mute every clip.
- **No audio file by Week 8.** You cannot edit from streaming.

Turn it in Export at 1080p. Every member of the group submits the same file to Assignment 05.
