ASSIGNMENT 06 | THE COOKING VIDEO

Part 1: Ingredients Stop Motion

An 8 to 10 second animation of your ingredients. It opens your cooking video.

PHOTOGRAPHY & VIDEO
10th grade, Semester 1
Mr. Nizzani

DUE
Week 10, Tuesday
bring it to the edit

12 fps
set it in the app first

96 to 120
photos

8 to 10 s
long

HORIZONTAL ONLY Phone sideways, back camera, before the first photo.

STEP BY STEP

01 Recipe and app

- The same dish you cook for the video.
- Stop Motion Studio, free version. Set 12 fps.

02 Clean set, good light

- Colored paper as surface and backdrop.
- Bright, soft and even. No shadows.

03 Lock everything

- Phone on the tripod. Hands off.
- Exposure on manual and locked: no flicker.

04 Small moves, then export

- Plan the moves. One small move per photo.
- Shoot on Week 9 weeknights. Export HD at 12 fps.

Watch out

- **Wrong frame rate.** Check the app says 12, not 5, 10 or 30.
- **Flicker.** Lock the exposure before photo one.
- **No ending.** The ingredients meet and come together.

Turn it in Export as an HD video at 12 fps and name it LastName-FirstName-StopMotion. It opens your video and is graded with it.

Check before you submit

- [ ] Horizontal
- [ ] 12 frames per second
- [ ] 8 to 10 seconds
- [ ] Exposure locked, no flicker
- [ ] Camera never moved
- [ ] Clean set, even light
